- Location/Talent Scout/Crew Hire
- Equipment Acquisition/Maintenance

Freescale Semiconductors 2002 -2007
Video Production Specialist

- Created original brand content for a wide variety of video projects, targeting audiences in countries around the world. Projects ranged dramatically in scope, budgets, and complexity.
 - Responsibilities included video acquisition (authoring, display, and web distribution), non-linear editing, motion graphics, 3D animation, digital photography, stock video/image acquisition, image manipulation, audio acquisition/mixing for projects such as product promotion, announcements, demonstrations, public events, award ceremonies, large-scale conferences, and private functions.
 - Successfully met each client's goal while adhering to rigorous corporate branding guidelines.
-

RECENT PROJECTS

Dell, Austin, TX MARCH 2020

- Under a 30-minute timeline, working with (3) cameras and (2) operators, mic'd and shot a 15-minute (EXT.) conversation between a Dell VP and an Intel VP. Also hired a drone operator to capture 3 minutes of aerial footage. Delivered (5) 2-min videos focusing on each of the 5 discussion topics. Editorial, color corrected, cleaned, and balanced audio.

NXP Semiconductors - CES 2020, Las Vegas, NV JANUARY 2020

- Working solo over 2 days, I shot the CEO's opening "welcome" video in addition to the CTO's 30-minute "walk-thru" in which he introduced much of the technology highlighted at the show. Also shot general B-roll of the event as well as 16 separate (demo) interviews.

WellCare Leadership Summit, Sarasota, FL OCTOBER 2019

- Coordinating with a second camera unit, shot B-roll and "Man-On-The-Street" interviews on the floor of the event. Also traveled to multiple locations around the Sarasota area to capture hundreds of event attendees participating in various volunteer activities such as beach clean-up and assisting an under-served school.
