

COVID-19 Testing for Media Production

The CDC estimates that roughly 40% of COVID-19 transmissions are happening before people feel sick or show any symptoms, and 35% of those who have the virus never show any symptoms at all.

ARCpoint Labs offers a full suite of COVID-19 tests to help media production companies identify infected staff (symptomatic or asymptomatic), so you can prevent them from infecting others.

Testing Highlights

- Offer RT-PCR viral tests, both nasopharyngeal swab and saliva (approved provider by SAG-AFTRA)
- Also offer Rapid Antigen viral test and Antibody tests
- Delivered at our lab or at a location of your choice
- Quick results (same day for Antigen, ~48 hrs for PCR)
- Best prices in Central Texas and no physician referral required
- Online scheduling & patient intake, and automated email results to both patient and employer / sponsor
