CLARK TOLLESON

CAREER OBJECTIVE

I have two goals: one is to make your job, and life, easier. The other is to be a quality-oriented and results-oriented creator and producer who works passionately, collaborates with others, and communicates well. In 2010, opening a YouTube channel and posting videos became not only a hobby - it became a passion. Whether I'm behind a camera, working in an editing suite, wearing my directors hat or producers hat, I work in this industry because I love it. Case in point, I am a talent that you are looking for. I am a phone call away. My number and email are right above.
