“Carrier services are less expensive than driveaway services, but can take longer to deliver a vehicle.”

“We **NEVER BROKER** out your vehicle.”

WE ARE DIFFERENT FROM TRADITIONAL TRUCKING COMPANIES

With trucking you are at the mercy of the company's schedule. Most times they will not give you an exact time of pick up let alone a delivery time. (They act very much like the cable company.) Every time your vehicle goes up or down on a truck you risk something being scraped, dented or broken. Suspension damage may occur if the vehicle is not secured properly. Placement of your vehicle is important also. If the vehicle is riding above the cab of the truck it could be damaged by flying road debris. Leaking fluids from the car above may result in a brand new paint job at your expense. Delays are caused when trucks break down or are late. Your vehicle may sit at a terminal.

In many instances the people that pick up your vehicle are not the same ones that deliver it.

We **NEVER BROKER** out your vehicle, and you know who is driving your vehicle. We do extensive background checks on our drivers which include their motor vehicle and criminal records. You have the option of being in direct communication with your driver as he will give you his cell phone number.

Our contracts are easy to read and understand. Try theirs.

Thomas McKernan, CEO
Automobile Club of Southern California
3333 Fairview Drive
Costa Mesa, CA 92626

Dear Mr. McKernan:

Recently my son had to replace a damaged vehicle in Halifax, Nova Scotia, Canada with a new one purchased in New Hampshire, USA. Neither he nor I could take time off to transport the new vehicle from the USA to Canada, so we began looking for a professional auto transport service. After initially exploring the Internet, we decided to call the Auto Club of Southern California. We were informed that AAA of Southern California did not, of course, operate back east; however, we were advised to contact Mr Tony Bellefond of Professional Drivers Incorporated, Manchester, New Hampshire., (603) 627-4266 for assistance and advice.

This letter is to thank The Automobile Club of Southern California for referring us to Mr. Bellefond as his company did an excellent job in transporting the replacement vehicle to Halifax, N.S., Canada including negotiating the United States/Canadian border crossing, a feat that is not easy for the unwary. Initially the crossing was held up but due to the efforts of Mr. Bellefond, and with the assistance of Canadian Border personnel, crossing was allowed in less that approximately two hours with a subsequent apology, I am told, issued from Ottawa for the delay, a gesture appreciated by us.

I would rate the services of Mr Bellefond and his company as outstanding in all aspects.

Again thank you very much.

Sincerely yours,

Benjamin F. Cowan
