## ORIGINAL MUSIC FOR FILM & TELEVISION

Scott Szabo is an award-winning music composer and songwriter for Television, Film and Multimedia with a unique writing style. From hybrid to symphonic orchestra to electronic, Scott creates music designed to enhance scenes intended to tug at the heartstrings, make your audience's heart race through a river rafting chase sequence or chuckle when the hero reality family loses its way in a foreign environment. In addition to telling narrative stories through his music, Scott has composed music for over 200 commercials with corporate clients including Shell Oil, Enron, Applebee's and Time Warner, among many others.
