Skills

Grip/G&E: Experience with lighting setups for commercials and film. Knowledge of lights, stands, and various G&E equipment. All those funny names for equipment that Gaffers often use.

Sound Recordist: Experience with the principles and techniques of recording acoustic sound, microphone placement, and signal chain. Tact and discretion when working with talent and camera departments.

Digital Imaging Technician (DIT): Experience with safely transferring and storing valuable media and footage on set and on location. Knowledge includes DIT software and information relating to the post-production pipeline.

Video Editor: Experience with non-linear editing (NLE) software such as Adobe Premiere, Davinci Resolve, and Final Cut Pro. In addition, I have experience with video compositing software such as Adobe After Effects, and digital audio workstations (DAW) such as Adobe Audition, Pro Tools, and Ableton.

Camera Operator: Experience with various camera systems (Sony, Canon, Arri) and the principles of proper exposure, composition, and effective video capture.
