ISSG

Our Company

Integrated Security Solutions Group LLC (ISSG) is a trusted source of security specialists, event talent protection team for clients across the United States. With a strong national footprint and personalized services in communities where we work and live, we are a source of resolute support and peace of mind. We are a company dedicated to security and accountability.

Our Team

Integrated Security Solutions Group LLC (ISSG) is proud to be a globally recognized company. The structure of ISSG is built on over 50 years of combined seasoned Security Specialists, Veteran Law Enforcement, and Federal Investigators. That experience is what makes up our leadership and staff and what makes ISSG the premiere all-inclusive security company.

I S S G

Our Services

Integrated Security Solutions Group-ISSG uses the top sophisticated analytical and investigative methods to prepare governments, organizations, and individual clients with integrated risk management strategies and responses. Offering innovative and progressive security solutions specific to the needs of every client. ISSG will always strive to provide and maintain our clients with the best customer service and the highest quality of personnel.

Special Events Contingency Planning

Our special events division takes all the guesswork out of security matters for your event. Comprehensive safety planning, risk analysis, on-site security checks, guest lists, and physical safety and security.

ISSG Personal Protection Officers and Executive Protection Divisions are held to the highest levels of professional execution. Our staff is singularly focused on your needs. Our satisfied clientele ranges from celebrities, political dignitaries and families, Fortune 100 & 500 clientele, as well as sports and public figures. We work closely with all local, state, federal, and government agencies.

All ISSG, LLC officers are licensed with mandatory annual recertification. In addition, they are subjected to rigorous background checks. Our Corporate Etiquette Training™ program is required for all ISSG, LLC officers, and we hold our staff to more than just the required security training programs. All ISSG staff is trained in-house through our Training Academy and our College for Protection Education.

Live GPS Monitoring & Tracking

All our vehicles are equipped with the latest GPS tracking technology and digital surveillance cameras, always monitored by our control center to oversee the entire trip and monitor for any unexpected problems or delays.

If a problem does occur during travel, our team will have available resources in place to deploy at a moment's notice to provide solutions.

Safest Fleet of Vehicles

Our fleet of ground transportation is top of the line and comes equipped with GPS Tracking with live feeds that are always monitored by our control center to oversee the entire trip and monitor for any unexpected problems or delays. Our security travel specialists will conduct route analysis and reconnaissance prior to our client's arrival and will use their extensive experience in advance planning and logistical coordination to safeguard our corporate clients who need discreet, high-level protection services.
